AZOMITE® Mineral Analysis - Heavy Metals

MINERAL ANALYSIS - HEAVY METALS

AZOMITE® does not contain heavy metals at high enough concentrations to be harmful. In fact, the heavy metal content in **AZOMITE®** is usually *less* than the heavy metals typically found in soil or feed ingredients. For example, typical soil contains approximately 2 ppm Arsenic (As), 0.34 ppm Cadmium (Cd), 5.59 ppm Lead (Pb) and 0.1 ppm Mercury (Hg). The heavy metal content of **AZOMITE®** is listed below.

Product Name: 0-0-0.2 Natural Trace Mineral				
Product Status	Brand Name	Waste Derived	Pesticide	
Registered	Azomite	No	No	
Registrant: PEAK MINERALS-AZOMITE INC - BRANSON, MO (417) 334-8500				
Heavy Metals (in Parts Per Million)				
Arsenic: 1.1	Cadmium: 0.3	Mercury: 0.03	Lead: 6.2	Nickel: 2.6
